Cross-Pollination

Our school will display more team spirit if our teams, groups, and clubs “cross-pollinate” and support each other. You can play an important role in that process.

First brainstorm as a class and list of all the different teams, groups and clubs at your school. Use this handout to fill in the names of the teams, groups and clubs. Write the names of those groups on each line. Then decide which three groups you will reach out to and draw arrows to those lines. See the example in the bottom corner.
